## KIP 9900 System

22 'D' size prints per minute  
600 x 1800 DPI Imaging Technology  
4 Media Rolls with Sheet Feeder  
Single & Dual Footprint Configurations

# KIP 9900

**KIP 9900 Series Systems are exceptionally powerful print, copy and scan systems designed to provide medium to high demand users with the ultimate in advanced technology, superior image quality and reliable performance.**

### KIP 9900 Print Systems Features

Built to set a new productivity benchmark in high production environments, the KIP 9900 produces 22 'D' size prints per minute - making it the fastest wide format production system available.

Enhanced 600 x 1800 DPI Imaging Technology realistically renders accurate gray scale information and fine line capabilities to satisfy the most exacting quality standards. KIP 9900 Print Systems address demanding print runs and compressed delivery times with the highest quality expectations in virtually any digital imaging environment and can be easily upgraded to incorporate monochrome and color copying and scanning.

- ✓ 600 x 1800 DPI Imaging Technology with 100% toner efficiency
- ✓ Integrated touch screen with advanced user management
- ✓ KIP 7.0 software, application drivers, accounting software
- ✓ PC and web based submission tools included with each KIP 9900 system

### KIP 9900 Multifunction Systems

The KIP 9900 systems combined with the KIP 720 scanner handle the full spectrum of monochrome and color scanning applications making it ideal for technical imaging as well as full color graphics. In addition, the KIP 9900 Multifunction Systems provide the capability to scan to network PCs, web based plan room applications, removable media drives or create color copies directly to inkjets from the touch screen user interface.

- ✓ Single, space saving system footprint with no need for additional PCs
- ✓ Create color copies & prints directly to inkjet printers
- ✓ Scan documents into a wide range of monochrome and color file formats
- ✓ Image presets with real time copy and scan previews provide maximum quality control file formats

### KIP 9900 Production Systems

The KIP 9900 Series may be combined with the KIP 2300 high production scanner to produce the ultimate in mid to high demand production systems. Superior image quality is achieved through by a combination of advanced camera based image capture and new KIP Tru•Speed technology for extremely high speed data throughput with no system pauses or slow downs.

Exceptionally durable construction ensures reliability and consistent image quality for production environments

- ✓ Dual mode scanning with thick document support
- ✓ High speed data transfer with KIP Tru•Speed technology
- ✓ Visual operator feedback system for production scanning
- ✓ True 600 x 600 dpi optical resolution - 24 bit image capture
- ✓ 12 month optical system warranty

### KIP Cloud Printing

KIP Cloud Printing delivers the ability to Email files to a KIP systems for immediate or future viewing and printing. Simple key words can be used in the email body to specify printing instructions for each job set or file, helping mobile users to stay productive.

### KIP Color Pro Software

This optional software package delivers advanced copying and scanning features and also includes the ability to RIP files to print. KIP Color Pro software provides advanced color management features and professional image editing tools that allow you to perform difficult tasks easily and with consistent results from one job to the next.

- ✓ Total control of the copying process
- ✓ Full-featured scanning and archiving
- ✓ Open and RIP files to Inkjet
- ✓ Multiple KIP scanner and printer support
- ✓ Powerful tools to streamline usage

### KIP 9900 Finishing Systems

The KIP 9900 Series are compatible with a range of stacking solutions designed to deliver print output just the way you want it. From simple print catchers to intelligent online stacking systems, KIP solutions can be easily tailored to suit your exact needs, while maintaining the flexibility to grow as demands increase.

### KIPFold 9900

The KIPFold 9900 systems automate document finishing requirements by providing folding, stacking and collation in a compact design. The system is fully integrated with all KIP copying and printing applications and drivers to provide seamless workflow integration.

### The Color of KIP is Green

KIP is committed to product designs that promote environmental health and sustainability. Our goal is to consistently improve and refine the technologies in KIP products that keep our planet green.
